

## TMS 301 RingO Wall Pack for iPad (2, 3rd and 4th Gen.)

The Wall Pack for iPad contains the Holder and one Wall Mount. The Wall Mount is a discrete and stylishly-designed button that can be screwed onto almost any surface. Any tablet with a Vogel's Holder can then be easily clicked onto the Wall Mount so it hangs safely in place, ready for viewing films, photos, recipes, or any other application. Once mounted, the tablet can be freely rotated through 360 degrees, and the locking system ensures stable and secure support. And unmounting the tablet is just as easy.

## TMS 301 RingO Wall Pack for iPad (2, 3rd and 4th Gen.)

The holder for the new iPad (also fits the iPad 2) is especially designed with the new iPad in mind. It fits the iPad perfectly and is even 15% thinner than the original holder for iPad. The iPad with Holder is just 0,2 inch thicker than the original iPad alone. The smart design of the Holder brings out all the iPad functions, so you can use the HD-camera, connect the usb-connector or iPad Camera Connection Kit and you can easily attach Apple's beautifully designed magnetic Smart Cover. The Wall Mount is discrete and stylish, so it looks good even when the iPad is not installed. Simple yet secure the Wall Mount lets you view your iPad vertically, horizontally, or at whatever angle you choose.
